

Dominion government, but expended by the local government. And, in that connection you have an additional \$65,000, this being paid by the Dominion government over and above what is expended by the local government. There are other expenditures now made by the Dominion government, such for instance, as court house, sheriff's office, Regina jail, and Prince Albert jail and all which will be required to be paid by the provincial government in the future. Then there is the item of public works. There is now paid for public works by the territorial government out of money supplied by the Dominion government, somewhere about \$680,000. In addition to that, I need hardly say, there is a large amount expended by the Dominion government, but that expenditure by the Dominion is for works that will remain under the control of the Dominion government. Then we have the details of what will be required for education and for agriculture and statistics. In the latter, in addition to what is expended by the territorial government, there is \$7,000 paid out by the Dominion government. Under the head of government in the Northwest Territories we have expenditures for lieutenant governor's office, registrars' offices and schools unorganized districts, and so on—these are met by the Dominion government, but hereafter will be a charge upon the provinces. I think I cannot do better than give a summary of the expenditure made by the local and by the Dominion government for purposes which hereafter will come under the control of the provinces.

Mr. R. L. BORDEN. That is what we want.

Mr. FITZPATRICK. The figures are as follows for expenditures now made by the territorial government:

Civil government.. . . .	\$ 101,540
Legislation.. . . .	21,375
Administration of justice .. .	29,000
Public works.. . . .	680,000
Education.. . . .	345,125
Agriculture and statistics .. .	47,600
Hospitals, charities and public health.. . . .	20,000
Miscellaneous.. . . .	68,175

Total.. . . . 1,312,815

To this you must add the expenditures being made by the Dominion government in connection with the same services:

Administration of justice .. .	\$ 200,290
Public works.. . . .	215,000
Agriculture and statistics.. .	57,000
Government of the Northwest Territories through the Lieutenant Governor.. . . .	124,380

Total.. . . . 596,670

Adding these sums together you get a total of \$1,909,485. This, according to the estimate prepared by the territorial author-

Mr. FITZPATRICK.

ities, would approximate the total amount. In this they have included something like \$200,000 for purposes that we thought were not necessary and that were deducted. There was \$3,000 in connection with the administration of justice; \$8,000 in connection with the Edmonton jail, which will have to remain under the control of the Dominion government, because Edmonton jail is really a penitentiary; \$100,000 estimated for police service which cannot be included; \$38,000 in connection with roads and \$100,000 for the construction of a proposed fence along the international boundary line of the territories. There is also another item which I cannot explain just now. The deduction of this amount of about \$200,000 would leave about \$1,700,000 which was the basis upon which we practically settled.

Mr. SPROULE. That had nothing to do with the Yukon?

Mr. FITZPATRICK. No. I have the public accounts which show the actual expenditure by the territorial government and also the expenditure by the Dominion government last year. But I have not the figures here.

Mr. FIELDING. I will bear in mind what has been suggested and bring the memorandum so far as it can be done. The Minister of Justice (Mr. Fitzpatrick) says it has been prepared and that he has it.

Mr. R. L. BORDEN. As I understand it, the revenue of each province payable by the government will be \$1,030,375, made up as follows:

Civil government and legislation.. . . .	\$ 50,000
Allowance at 80 cents per head per capita on 250,000 population.. . . .	200,000
Debt allowance.. . . .	405,375
Allowance for lands.. . . .	375,000

Mr. FITZPATRICK. It is based upon the population of 500,000 for both provinces. The allowance for the two provinces would be:

Civil government.. . . .	\$100,000
Per capita allowance at 80 cents per head on 500,000 population.. . . .	400,000
Debt allowance.. . . .	800,000
Compensation for lands.. . . .	750,000

That would be a total of \$2,050,000 or for each province, \$1,025,000.

Mr. ARMSTRONG. Did the representatives give to the government an estimate of the amount of money they were likely to receive from licenses, subsidies and succession dues?

Mr. FITZPATRICK. \$143,000 from all sources was the estimate of territorial revenue, based upon the figures of the amount received last year, that is for the two provinces.
