

Mr. OLIVER. I think the boundary between Gleichen and Rosebud should move six miles north as the line between Rosebud and Innisfail is moved six miles north. It leaves Rosebud the same size and adds a township to Gleichen. I may say that I know all the towns along the line, and I think this would throw them pretty well into the constituencies they wish to be in.

Mr. M. S. McCARTHY. My desire was to have the northern boundary of Rosebud the northern limit of township 34.

Mr. OLIVER. Then, I understand that my hon. friend (Mr. M. S. McCarthy) means to move the northern boundary of Rosebud two townships north?

Mr. M. S. McCARTHY. Yes, instead of one.

Mr. OLIVER. That would be objectionable from the point of view of the interests centred at Innisfail. It would bring the line almost as close to Innisfail as the present line is to Olds. It would be better to make the line between Innisfail and Olds the two principal towns, the line I suggested first. I move that the boundary between Gleichen and Rosebud be the township line between townships 28 and 29 from range 10 west of the 4th principle meridian.

Mr. FITZPATRICK. I understood the northern boundary of Gleichen ran to the British Columbia boundary.

Mr. OLIVER. Well, we might say that—it would make it simpler. Take the township line between townships 28 and 29, and run it to British Columbia as a boundary between Gleichen and Banff on the one side and Rosebud on the other.

Mr. FITZPATRICK. The northern boundary of Gleichen will be the southern boundary of Rosebud. Then, the northern boundary of Rosebud—

Mr. OLIVER. Will be the line between townships 33 and 34 west to the British Columbia boundary?

Mr. FITZPATRICK. Then I understand the geographer of the Department of the Interior will draw an amendment to these sections to give effect to the suggestion of the Minister of the Interior. With that understanding, I move that the schedule be adopted as a whole.

Mr. OLIVER. The hon. member for Alberta (Mr. Herron) suggests another amendment to the boundary of Pincher Creek. There is an oil proposition down in the very corner of Alberta which is operated from Pincher Creek, they run the stage to it from Pincher Creek. It is in Cardston according to the present boundary and the proposal is to take it into Pincher Creek. The proposal is that townships 1 and 2 in ranges 30 and 31 be a part of Pincher Creek.

Mr. M. S. McCARTHY.

Mr. FITZPATRICK. And it will be necessary to alter Cardston also.

Mr. OLIVER. Yes, to take a little part off the western part of Cardston and add it to Pincher Creek.

Mr. FITZPATRICK. We will leave the drafting of that amendment also to the geographer of the Department of the Interior to be prepared by him.

Mr. R. L. BORDEN. I suppose that these will be placed before the House in advance of the third reading?

Mr. FITZPATRICK. They will be distributed to-morrow, so that if there is any objection it can be taken at once.

Mr. DEPUTY SPEAKER. It is moved that the schedule be adopted, subject to the amendments to be made. Shall the motion be agreed to?

Mr. R. L. BORDEN. On division.

Mr. FITZPATRICK. As we are on these divisions, we might take up Saskatchewan by consent.

Mr. R. L. BORDEN. We might have done so had I anticipated it. But I understand that my hon. friend from Qu'Appelle (Mr. Lake) desires to get some further information.

Mr. FITZPATRICK. I do not press it. Going on with this Alberta Bill, I move that section 12 which covers the schedule, which we have just approved, be adopted.

Mr. R. L. BORDEN. Are you going to leave in these words that have no sense?

Mr. FITZPATRICK. I think we might strike them out. I move that the words 'having due regard to distribution of population and existing local divisions' be struck out.

Mr. R. L. BORDEN. They seem to be somewhat satirical as they are.

Mr. FITZPATRICK. Not in the mind of the man who drew the section.

Amendment agreed to and section as amended agreed to.

Mr. FITZPATRICK. We might take up section 8, dealing with the seat of government?

Mr. R. L. BORDEN. My hon. friend from Calgary (Mr. M. S. McCarthy) is anxious to have that stand. We might take up the section relating to the lands and let us move our amendment.

Mr. DEPUTY SPEAKER. Section 20 relating to Dominion Lands is carried.

Mr. R. L. BORDEN. What sections are there standing now?

Mr. FITZPATRICK. I will read them. Section 2, the application of the British
