it would enable Upper Canada to maintain the control of sent each Province in the Legislative Council, as they the General Legislature for ever. Representation by would be few in number, ought to be appointed by, and population will give the two Canadas 100 of a majority possess the confidence of, both branches of the local over all the lower Provinces in the House of Commons, legislature. This provision I deemed especially necessary and by each of the Canadas having as many members in as regarded the interests of this island, for it is extremely the Legislative Council as the whole of their easternidoubtful, should the Union take place, whether we shall sisters, they will together always command a majoritylever have a single representative in the General Governthere of 24 over us, so that the only principle on which ment; and if otherwise, we at least cannot expect more there of 24 over us, so that the only principle on which most; and it observes, we us inset cannot expect more, in the Maritime Colonies, each expect princip will be than one.
