the three reas Look at Unbriotic County in 1854, one of the most reproperous years the country, ever saw; during that year young men kept goling away. Why was it? The country was prooperous. The fact is that when we will go, and no railways or anything they will see that the proof of the country was the up their minds to get the country will go, and no railways or anything they will see that the country was the country that they want them. kept goling away. Why was it? The line. The satisface if from to the come of the properties. The fact is that young may properties. The fact is that young men of the work then, Lak, like their properties of the properties of the

the Act of 1850 that the be carried on.

Hon. Mr. Smith—The provision was that they were to go on with the trunk or the branches as they could.

Mr. Kern.—If they are going to deal Mr. Kern.—If they are going to see the second of the second fairly, the Government must serve all , the Government must serve all one of the Province alike. Seeing narry, portions of the Province slike. Seeing portions of the Province slike, I cannot withdraw my amendment, and I am sure members of the Government, were they in my circumstances, would do the steme. I think it best for the law to take its course, and hest for the law to take its course, and leave the work for companies to take up. It may be that Mr. Parks will come out and surrender his charter forhwith. Then the Government are going to take the matter in hand; but I would like to

the matter in hand; but I would like to know where it may be proved to get the movement of the printed to raise it on the printed to raise it on the printed to raise it on which the printed to raise it on well find great difficulty, as collicity will find great difficulty, as collicity will find great difficulty, as collicity rise again for some The hom. member of the again for some The hom. member of Northumberland asked if the State of Matine were doing applied, and Matine were doing applied, and the building the roade given to the com-tinue of which Mr. Pour in the President, is over million of acres of land, sesject to
